

MINISTRY OF CULTURE, COMMUNITY AND YOUTH

SG PARTNERSHIPS FUND (SCALE)

INSTRUCTIONS

About this grant

The SG Partnerships Fund (SGPF) aims to support citizens who want to step up and lead efforts to contribute to the community. If you are an individual, ground-up or SG-registered organisation keen to partner the Government on a project, we provide funding and support to help you succeed.

The SG Partnerships Fund provides tiered support for projects at different levels:

Scale

If you are an SG-registered organisation ready to scale your initiative to drive sector-wide impact, you can apply for the Scale tier below. Your initiative must meet the following objectives:

- A new or scaled-up initiative which demonstrates measurable sector-wide or systems-wide impact and reach, across multiple communities, stakeholder groups and locales.
- Addresses demonstrated sectoral needs and creates positive social outcomes.
- Active involvement of other citizens, community partners and organisations, in co-creation and co-implementation of the initiative.

The SGPF does not support projects centred on commercial objectives or business development. Requests for funding to sustain existing programmes or existing organisational functions will also not be supported.

Seed and Sprout

- If you are looking to test a new, small-scale idea that benefits your community, you may wish to explore the [Seed tier](#) instead.

- If you are looking to grow and amplify your project's impact across multiple communities and stakeholder groups, you may wish to explore the [Sprout tier](#) instead.

Note: All funding decisions are final and the SGPF reserves the right to approve or reject any application at its sole discretion.

Need inspiration?

Check out more examples of supportable projects and initiatives here: <https://www.sgpo.gov.sg/feature-stories/>.

Example of a Scale initiative: A multi-year place-based community health programme which convenes various healthcare partners, social enterprises and the community in co-creation and co-delivery. The initiative grows collaborative capacity on the ground, cultivating 3,000 community health champions over multiple locales to embark on health movement projects of their own.

Who can apply?

- Your organisation must be officially registered and operate in Singapore. This includes companies/corporates, non-profit organisations, societies, cooperatives and social enterprises.
- Corppass will be required to log into OurSG Grants portal to submit an application.
- Contact person/applicant must be a Singapore Citizen/Permanent Resident who is residing in Singapore.

When can I apply?

The SG Partnerships Fund (Scale) tier is open for applications from January - February and July - August. Applications undergo a rigorous evaluation framework in batches every application window cycle and the selection process is highly competitive. Applicants will be notified of the outcome within 5 to 7 months of submission.

How much funding can you receive?

Successful applicants may receive funding for up to 80% of supportable programme and organisational capacity costs for your project, capped at \$1,000,000. Final approved funding amounts will depend on assessment of project merit, supportable costs and actual expenditures.

Please refer to the details in the [FAQs](#).

How to apply?

The application takes about 45 minutes to complete with all information on hand. All fields are mandatory unless otherwise stated.

 DOCUMENTS REQUIRED FOR APPLICATION

- [SGPF \(Scale\) Budget Form Template \(XLSX 22.5 KB\)](#)
